

“The Hideout”
Hikapee Circus Theatre Company
Easy Read Visual Story

About the Performance

	“The Hideout” is a contemporary circus and theatre performance.
	The performance takes place indoors. You, and the rest of the audience, will sit in seats to watch the show.
	The performance lasts for 45mins.

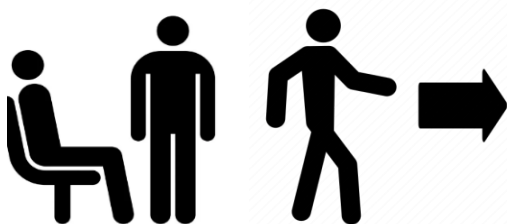

It uses **stage lights** and sometimes **haze**, to create an atmosphere, and to help the audience know where to look.

The performers will **bow** at the **end of the show**.

You can **clap the performers** throughout the show if you'd like to. Ideal times are when they perform a big circus trick, and when they bow.

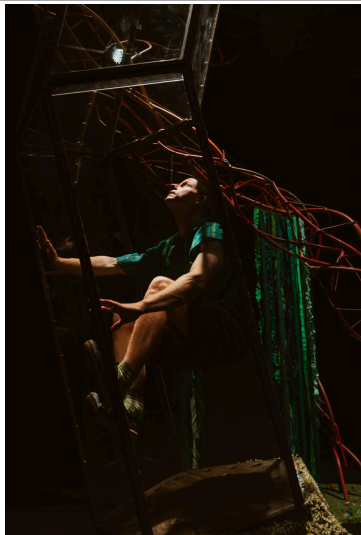

If you need to **leave the show**, an usher from the theatre will help you.

At one point in the show, the performers will **use a fan to help butterfly shaped confetti fly**. Some of the confetti may land on the audience (especially in the front row).

In one part of the show, the performers **pretend to fight with sticks**. The fight is playful, and nobody gets hurt.

The main themes of the show are friendship and anxiety. One of the characters is anxious a few times within the show. By the end of the show, he is happy and the show ends positively.

The performers will perform some **circus & acrobatic tricks** that seem dangerous. They have practised them many times, and are **very safe**.

The **show ends** when the 2 performers leave the stage together. Please clap if you'd like to.

The Performers

	I am Edd. I am a circus and theatre performer.
	I am Jen. I am a circus and theatre performer.
